AGREEMENT REACHED AT LAUSANNE; ALLIES TO GET OUT OF TURKEY

Prepares For Their Greatest Celebration as Outlet For Relief They Feel, Now That Near East Peace is About to be Realized—Ismet and Kemal Heroes.

Constantinople, July 10.—All Turkey today celebrated the peace from Lausanne. Newspapers announced Ismet Pasha's peace message in flaming headlines and Turkish officials here are making plans for a great celebration in thanksgiving. They say it will be the biggest celebration Turkey's history. The Angora cabinet has already met and authorized Ismet to sign the Near East treaty when it is finally prepared for that solemn function some time this week. Ismet and Mustafa Kemal are hailed everywhere as the national heroes and are the subjects of laudatory articles in the press. Flags and bunting are being draped about the towns and villages and the people are preparing themselves for a holiday. In the spirit of celebration that is everywhere evident there is unmistakable note of relief that peace is at last about to be realized. The only dissatisfaction is that evacuation of Constantinople and Turkish territory Allied troops will not take place until six weeks after ratification of the treaty.

FORD BUYS "YE WAYSIDE INN"

Telegraph to The Freeman. Sudbury, Mass., July 10.—"Ye Wayside Inn," immortalized by the Longfellow, was today the property of Henry Ford, Detroit automobile manufacturer. It is understood Ford paid in the neighborhood of \$200,000 for the relics and antiques housed in the ancient building. The inn had been operated continuously since 1656. It is reported the inn will be closed as a public history and converted into a historical museum.

Mrs. Edward E. Lemon, widow of the man who, at his death, was its landlord, has not divulged the price. When established the place was known as the Red Horse Inn, and the battered tavern sign which is emblazoned the scarlet charger, still swings from a portal.

CURRENCY IN CIRCULATION NOW \$4,700,000,000

Washington, July 10.—Business prosperity has brought \$336,000,000 additional currency into circulation in the past year, the federal reserve board said today. The demand for new currency has been increasing at the rate of \$1,000,000 a day.

Larger payrolls and full time employment for labor is one of the chief reasons for the larger currency volume. Currency of all kinds now in circulation includes \$746,000,000 in gold; \$670,000,000 in silver; \$306,000,000 United States notes; \$2,325,000,000 federal reserve notes; \$12,000,000 federal reserve bank notes; and \$734,000,000 national bank notes.

MAUGHAN TO TRY AGAIN WITHIN WEEK

Telegraph to The Freeman. St. Joseph, Mo., July 10.—Unhappily by the discouraging end of his planned ocean-to-ocean, dawn to dusk flight, Lt. R. L. Maughan, today made his plans for another leap from New York to San Francisco. Maughan intends to return to New York and start another flight within a week.

A. WILLIS EXPELLED FROM STOCK EXCHANGE

Telegraph to The Freeman. New York, July 10.—Harvey A. Willis, head of the firm of Harvey Willis & Company, stock brokers, was expelled from the Consolidated Stock Exchange today. The announcement was made from the rostrum of the exchange shortly after the opening.

New Telephone Directories

The new telephone directories issued by the New York Telephone company have just made their appearance. The new books have two columns to a page instead of three which makes it a great deal easier to find the names of the different subscribers.

Millinery Parlors Improved

A new glass front has been installed in the millinery parlors of Reilly & Beach at No. 64 Broadway and the interior painted. A garage has also been erected in rear which will hold seven cars.

Six Killed In Storm

Montreal, Que., July 10.—Six persons were killed during a hail storm, Saskatchewan, and heavy damage done to crops, according to reports received here today.

Compensation Hearing

Referee Cooper of the state industrial commission is holding hearings today in the supervisors' room at court house, in compensation matters with the usual large calendar.

In A Notary

Henry C. Witte of Ulsterville, has been appointed a notary public by Governor Alfred E. Smith, in and Ulster county.

HARDING PARTY REACHES JUNEAU

Views Glaciers and Holds Reception—Chilly Weather Makes Overcoats Necessary.

By Telegraph to The Freeman. Abroad U. S. S. Henderson, with President Harding, in Alaska, July 10.—(By naval radio)—President Harding reached Juneau today, receiving tumultuous welcome from the population. The transport Henderson "passed through Taku inlet, those of board viewing the glorious Taku glacier during the early morning and making Juneau by mid-forenoon. Scores of boats in the harbor used their sirens to toot a hearty welcome.

The welcoming committee was headed by Mayor Goldstein. After landing President Harding and his party were escorted by Legionnaires and regulars from Chilkoot Barracks to the governor's mansion. Children dressed in white and stationed at the street intersection sang their welcome and threw flowers at President and Mrs. Harding.

President Harding will remain at Juneau as the guest of Governor Dene over night, leaving early Wednesday morning for Seward, where, Saturday, he will start a week's trip over the government railroad to Fairbanks and Valdez.

This afternoon the president was scheduled to view the Mendenhall glacier, after which he was to go to the city hall, where the president and his cabinet are due to confer with a committee of city officers on Alaskan matters.

From 9 to 11 o'clock the president plans to hold a general reception of Alaskans at the governor's mansion. Last night the Henderson penetrated a dense fog, necessitating constant fog-horning from the Henderson to the destroyers Corry and Hull, her escorts. Chilly weather requires overcoats constantly.

AQUITANIA'S DOCTOR SIGNS MANY PRESCRIPTIONS

By Telegraph to The Freeman. London, July 10.—"Yes, we have no prescriptions today," sang the ship's doctor of the Aquitania on the dry voyage from New York. That, however, was in the seclusion of his cabin. Each day of the trip, after the early morning rush was over the tired doctor hung out this sign:

"No more consultations today."

STONE WALL TO HOLD 'EM AT STONY HOLLOW

In addition to the usual guard rail which borders the state highways, stout posts have been set on the Stony Hollow hill at the turn and a stone wall a couple of feet in height is being erected. This will prevent cars going at a reasonable rate of speed from going over the steep embankment at that point. Many accidents have happened at this point and in several instances cars have gone down the bank which at some points is twenty to thirty feet in height.

CURRENT OFFERINGS AT THE THEATRES

"The Fox," shown at Keeney's yesterday, is a story packed with thrills and rapid action and carries an unusual love theme to a happy ending. Mildred Harris heads the cast. It will be shown again tonight.

"The Young Diana," a Paramount Cosmopolitan picture starring Marion Davies, has won popular favor at the Auditorium theater, where it is on view for the last time today.

Business Certificate

Harold Frederic King of 127 Fair street has been certified to the Ulster county clerk that he is conducting a business at 16 Prince street, in the city of Kingston, under the name and style "A. R. King Manufacturing Company," being the successor of Arthur R. King, who heretofore used the aforementioned business name.

Building Boom Increases Assessed Values In Kingston by About One Million Dollars

The total assessed valuations of property in Kingston for next year will be increased about one million dollars. At the present time City Assessor W. G. Johnston and his office assistants are engaged in writing up the assessment rolls for 1924, and the rolls will be open to public inspection August 1. The increase in assessed valuations in Kingston the past year is due to the large number of new buildings, commercial and dwellings, that have been erected. Just what the actual increase will amount to will not be known until the assessment roll is completed and the figures added.

ARMY HEADED TOWARD 90,000

January 1 Will See Smaller U. S. Standing Force Than Any Country In World, Population Considered.

By Telegraph to The Freeman. Washington, July 10.—Within the next six months the personnel of the United States army will be reduced to less than 90,000 men—the smallest armed force in proportion to population of any recognized country in the world, war department officials revealed to International News Service today.

When this estimated minimum is reached on January 1, 1924, America will have fewer men under arms than beaten, demoralized Germany, which, when "disarmed" by General Foch, was left with an army of 100,000 men.

Although congress, at its last session capitulated to the extent of authorizing a standing army of 125,000, as between the 115,000 figure favored by the law makers and the 150,000 urged by Secretary Weeks, legislation enacted at the same time now threatens incapability of performing its routine duties according to members of the general staff.

The army at present is losing between 1,000 and 1,500 men a month. By the end of the year, it is estimated approximately 74,000 men will have been discharged, including ordinary loss through desertion, withdrawal of minors by parents, courts martial, etc., and of this number only a very few will be re-enlisted.

Reasons prescribed by officials for this drastic falling off are as follows:

1. The new regulations, ordered by Congress, which went into effect July 1, requiring all men under 21 to have written consent from their parents before enlisting and requiring all men over that age to produce birth certificates to prove their ages.

2. The lack of adequate appropriations to conduct recruiting campaigns.

3. The plentifulness of employment for unskilled labor and the inclination of men to take such jobs rather than go to the trouble of looking up birth certificates to get in the army.

The effect of the army's demoralization already is becoming apparent, officials contend. Outlying garrisons at Panama, the Philippines, Hawaii, China and along the border are under-manned and a result it has been necessary to draw upon the troops stationed at interior points, taking them away from the work of training national guardsmen and civilians in the summer camps and making impossible the proper training even of recruits for the regular army.

By January 1, the army will represent approximately one tenth of one per cent of the population, a smaller percentage than any country in the world and in actual strength, with 90,000 men, will compare with the world powers as follows:

Russia 928,000; France 800,000; Japan 277,000; Great Britain 270,000; Poland 267,000; Italy 250,000; Turkey 233,000; Roumania 200,000; Czechoslovakia 150,000; Belgium 129,000; Jugoslavia 118,000; Greece 115,000 and Germany 100,000.

AUTO STRUCK A BABY CARRIAGE

Girl, Baby, Men and Boys Hurt—Car Then Hit Pole and Was Badly Damaged.

Several were injured early Monday evening when the Gardner touring car owned and driven by John F. Burns of No. 42 Post street struck a baby carriage on Abel street near the residence of Patrick J. McGee at No. 217. After hitting the baby carriage, the auto swerved, grazed a telephone pole and turned over on its side, tearing off two wheels and the top.

At the time of the accident Mr. Burns was driving out Abel street and saw the baby carriage in the road ahead of him. He claims he sounded his horn. Just as he approached the carriage another auto coming toward Kingston neared him and in order to avoid hitting the other car Burns swerved his car slightly to one side and in doing so struck the baby carriage.

The baby that was in the carriage is the son of John Leahy of No. 14 Ravine street and was being wheeled by his sister, Margaret. In the auto with Burns were his son Stephen, his two brothers Joseph and Patrick and Joseph Coughlin.

Dr. John F. Larkin who was called to the scene hurried the baby to the Benedictine Hospital where it was found it had sustained a deep cut over the eye, but was apparently otherwise uninjured. The girl sustained an injury to her back and was taken to her home. Later the baby after having the cut sewed up was taken home. John J. Burns received a broken rib, a cut over the left eye and a bruised forehead. He was treated by Dr. Voss. His two brothers were cut by flying glass.

Joseph Coughlin of No. 2 Post street, 14 years old, and Stephen Burns were rushed to the Kingston City Hospital. Burns sustained abrasions of the left shoulder, hip and right leg, but left the hospital after having his wounds dressed. Coughlin is still at the hospital. He sustained abrasions of the left shoulder and left elbow. Dr. Fred Snyder examined and cared for the two at the hospital.

The city ambulance was sent from police headquarters but was not needed.

The wrecker from Schwalbach's Garage on Railroad avenue hauled the wrecked car to the Transport Garage on the Strand where it will be repaired.

GIRL DEAD; ACID FOUND IN APARTMENT

By Telegraph to The Freeman. New York, July 10.—Police are investigating the death of Mrs. Doris McDonald, 23 years old, whose body was found early today, clad only in a flimsy night garment, outside the door of her apartment on upper Broadway.

Mrs. McDonald, police were told, returned home early today. She had attended a party, neighbors said. Inside the flat police found three glasses which had contained whiskey and carbolide acid.

Police were inclined to the theory the young woman committed suicide.

BALDWIN TO MAKE STREET LIGHTING CONTRACT TO BE RENEWED; STREET WORK LAID OUT; DELAY ON HIGGINSVILLE BRIDGE

Board of Public Works Offers to Continue Lighting Contract For One Year—Street Repairs for Balance of Season—Sewer Petitions and Other Matters.

Monday evening the board of public works met at the city hall and arranged for the street work for the balance of the season. After some discussion the board made up the following list of streets that will receive attention:

Rogers street.
Hunter street, between Hone and Abel streets.
Ponckhocke street.
Pine Grove avenue.
Montrose avenue.
West Chester street.
West Chestnut street from beyond the school to jumping off place.

These streets will undergo repairs as soon as the asphaltting of Elmendorf street is completed.

The board also decided that Abrynn street is to be the next street asphalted, but the work will not be done until the board is able to obtain a steam shovel to do the excavating. The property owners on that street will be notified to make the necessary curb connections before the work is started.

The board does not believe it economy to asphalt any street without a steam shovel to do the necessary excavating work. It believes it will be able to rent a shovel later in the season.

Light Contract Continued. The board authorized Corporation Counsel W. N. Gill to prepare a letter to the Kingston Gas & Electric Company agreeing to continue the present street lighting contract, as it was at its termination, in force for another year.

The Higginsville Bridge. County Superintendent of Highways James F. Loughran and Supervisor Frank Brink, of the town of Ulster, met with the board to discuss the Higginsville bridge over the Esopus creek.

It was brought out in the discussion that the state highway department will have to inspect the bridge and condemn it before the town of Ulster can go ahead to raise its share of the money for a new bridge.

Some time ago Mr. Loughran took the matter up with the state highway department but had heard nothing since then.

The board of public works directed Corporation Counsel Gill to take the matter up with the state highway department at once.

Jews Killed In Clash WITH TURKS IN THRACE

By Telegraph to The Freeman. Athens, July 10.—Several Jews have been killed in Eastern Thrace in clashes with Turks, it was reported here today. The disorders are thought to have arisen over the Turkish regulations against certain foreigners entering and leaving the country.

Some Jews have demanded asylum from the Angora government to leave the country. Recent protests against the Turkish regulations against foreigners entering and leaving Turkish territory obtained a suspension of the orders in reference to the nationals of larger nations, including the United States, England, Italy and France.

MARTIN TALMADGE KILLED IN AUTOMOBILE ACCIDENT

By Telegraph to The Freeman. Allenville, July 10.—Mr. and Mrs. Frank Stevens have received a telegram telling them that their son-in-law, Martin Talmadge, had been killed instantly in an automobile accident in Middletown. The wife was also seriously injured and was in the hospital but their little son, a boy of four, had escaped with only a few scratches. Mr. and Mrs. Stevens left immediately for Middletown.

Moore Paints Pole

Cliff Moore, the local steeplejack, on Monday completed the painting of the city hall flag pole. He also assisted Marshall Miller of the fire alarm system to change the police radio aerial to the north end of the city hall tower, and now better results are obtained over the radio at headquarters.

A Columbia touring car driven by Roy Terwilliger of Newburgh, collided with a Buick car driven by Samuel Levine of New York City near the Mombaccus Garage, Mombaccus, Sunday evening. Both cars were damaged.

Smaller Steel Tonnage

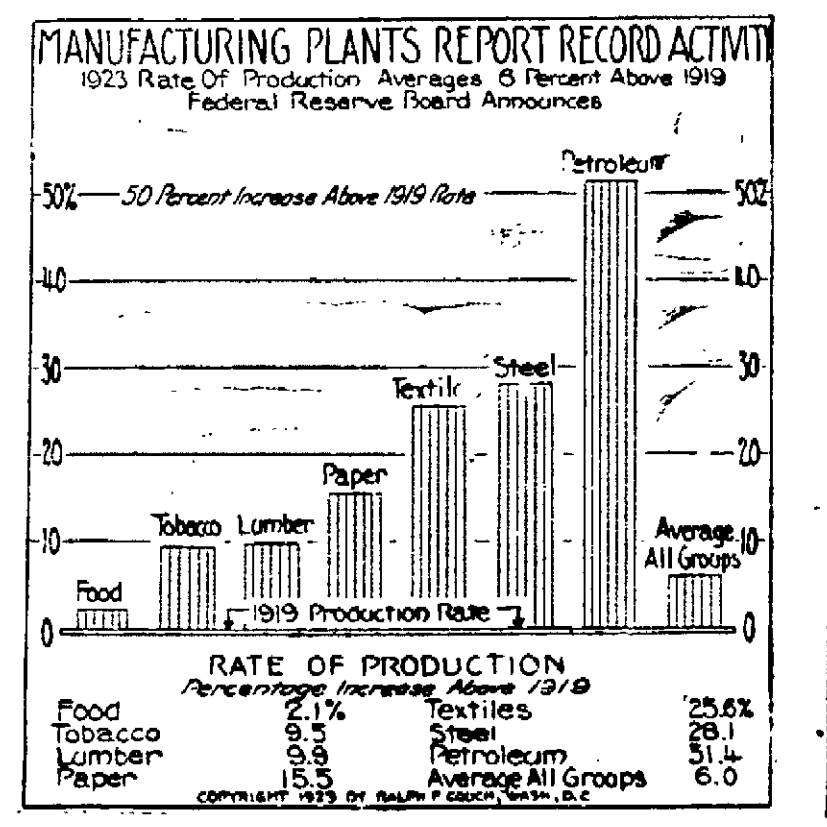

New York, July 10.—The United States Steel Corporation today reported unfilled tonnage on its books as of June 30th last of 6,886,261 tons, compared with 6,931,351 on May 31st last, a decrease of 595,090 tons.

ATTACKED IN BRUSSELS

By Telegraph to The Freeman. Paris, July 10.—A German official in charge d'affaires at Brussels was attacked by two war veterans, according to a Brussels dispatch to the newspaper l'Intransigeant today.

The attack was for the purpose of administering a "lesson" to the German official the dispatch added, because he had defied Belgians who were staging a demonstration against general sabotage in the Ruhr.

BUSINESS DAY BY DAY
as the Government sees it
PREPARED BY RALPH F. COUCH

By Telegraph to The Freeman. Brookton, Mass., July 10.—Seventeen additional arrests were made today of shoe strike pickets. More than 150 have been taken into custody since the city solicitor declared all picketing illegal. Leaders of the strike continue to assert they will not give up picketing. This leaves the police, if they do not make arrests, with no alternative other than admitting defeat. A score of arrests were made during disturbance last night in which two policemen and a number of participants were injured.

TO OIL OR NOT TO OIL FAIR STREET

Principal F. P. Coons Favored Oiling and a Petition Was Submitted Which Was Opposed by Elva H. Bogart, Whose Wife Had Signed the Petition.

The question of whether Fair street is to be oiled this year or not is to be decided by the street committee of the board of public works.

The question came up Monday evening when a petition signed by many of the residents of that street requesting that it be oiled was read.

Principal F. P. Coons of No. 162 Fair street appeared before the board and urged that the petition be granted. Principal Coons had just finished speaking and resumed his seat when in walked Elva H. Bogart, also a resident of Fair street.

Mr. Bogart said he was opposed to oiling the street if the same kind of oil was used as last year. As a matter of fact he did not believe the street needed oiling and suggested that the street flusher be used once a week on the street, and the residents would have an excellent street. He said that automobile drivers were in the habit of speeding through Fair street and if it was oiled it would increase the hazard and mean more auto accidents there.

Principal Coons asked to speak again and said that Mr. Bogart's wife was probably more aware of conditions on the street than her husband as she had signed the petition to have it oiled.

Mr. Bogart in reply said that it was no trouble to get a woman to sign a petition. As a rule women do not take into consideration all of the facts in a case. Mr. Bogart said it was an easy matter to get any one to sign any kind of a petition.

Mayor Crane referred the matter to the street committee and Superintendent Darrow.

Other matters taken up will be found elsewhere.

Signs and Sewers

Morris Munitz asked permission to erect a street sign in front of 63 North Front street, and his request was referred to Superintendent Darrow.

The Todd Tire Store, at 522 1/2 Broadway, petitioned for an air line to supply air from the edge of the curb. It was referred to the street committee.

L. Rosenzweig, of 327 Broadway, asked permission to erect a sign in front of his place of business. It was referred to the street committee.

A petition was received for the construction of a sewer on Johnston avenue, from Main street, a distance of 285 feet. It was referred to the street committee and Superintendent Darrow.

Seeking Information

Judge A. T. Clearwater sent in a communication asking if there were any records showing the dedication of that part of North street running from the Strand to the water front on the Rondout creek to the public use. He stated that so far as his personal recollection of over fifty years it never had been used in any way, and for over twenty years the Canoe Club, of which he was an organizer and a member, maintained a club house at the water front at the end of the street. The communication was referred to Corporation Counsel Gill and Superintendent Darrow.

Montana Fight Backer's BANK FAILS; HE'S GONE

By Telegraph to The Freeman. Great Falls, Mont., July 10.—The financial failure of the Dempsey-Gibbons fight at Shelby was today said to have been the direct cause of the closing of the Stanton Bank and Trust Company of this city, although efforts to connect the two failures were fruitless.

George H. Stanton, president of the institution, advanced \$50,000 to make up to the second \$100,000 payment due Dempsey on his bout with Gibbons, putting up the money for Mayor James Johnson of Shelby, who gave personal property for security.

Stanton could not be located today.

Null's Body Not Found

By Telegraph to The Freeman. Port Stanley, Ont., July 10.—Intensive search by air and water craft had failed today to reveal the body of Lieut. T. B. Null, who, it is believed, perished Thursday when the naval balloon A-6693 was wrecked on Lake Erie.

CENTENNIAL OF ST. JAMES'S M. E.

Week in October to Be Devoted to Celebrating Church's One Hundredth Anniversary—Bishop Anderson to Be Here.

This year the St. James's Methodist Episcopal Church of Kingston will celebrate its one hundred years of service in this community. Although the exact date of the founding of the church was in the early spring, it has been found wise for several reasons to celebrate this most notable occasion early in October and the officers of the church and the pastor, the Rev. Mr. Tetley are planning a celebration suitable to the event celebrated.

An historical sketch of this church is being prepared by Arthur C. Connolly and the same will appear, with illustrations of the old church, former pastors, etc., in very attractive booklet form.

One evening of the celebration will be given over to welcoming back to Kingston, former pastors of St. James's M. E. Church. Then there will be a "Home Coming," for former members of the church who have moved from Kingston but who will be invited to return for the centennial celebration.

The Ladies' Aid Society and the St. James Guild will give, on one evening, a reception to the former pastors and old members of the church together with the present congregation.

There will be special music provided for the various exercises and appropriate to the occasion.

Another delightful and unique feature being planned for the celebration will be an auto ride, probably about the Ashokan reservoir, for the youths and elderly people of the congregation and the visiting guests.

The Sunday of the week of celebrating will be the big day, of course. It is expected that Bishop Anderson of Cincinnati, who was the pastor of the church when the present edifice was built, will be the preacher at the morning service, while another distinguished clergyman will be the speaker at the evening service.

As soon as dates and times can be arranged a full program of the entire event will be published in The Freeman.

Gets Six Months' Sentence.

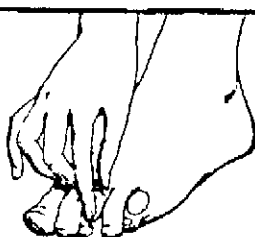

John Stephens, formerly of Malden, was sentenced by Police Justice Abel on Sunday to a six months' term in Albany penitentiary. Stephens, who lives on Montgomery street, Saugerties, was arrested by Officer John Lavelle, Saturday, on a charge of endangering the health and morals of little boys. After pleading not guilty to the charge, he pleaded guilty to a charge of assault, third degree, and sentence was imposed accordingly.

Dance at Grange Hall.

Lake Katrine Grange will hold its usual Tuesday evening dance at the Grange Hall, Lake Katrine, this evening. A three piece orchestra has been secured for dancing. Refreshments will be served by the members of the Grange. A nominal admission will be charged.

Much Bread Eaten.

If all the bread the average person eats in a year were baked in one loaf, it would take three strong men to lift it and a horse to pull it. The weight of the loaf would be 227 pounds.

A mothers' meeting was held at the community house last Wednesday afternoon.

The Women's Federation Clubs of the Central Hudson are issuing a new bulletin telling of the progress the clubs are making. The clubs in this district which are included in the federation organization include those in Walkkill, Walden, Marlborough, Milton and Middlehope.

There are some 1,800 members in the women's organization.

Last Wednesday afternoon, July 4, the Milton baseball team played and defeated the colored team from Dutchess Junction, by a score of 19 to 0.

Mrs. Edith S. Fowler has purchased a Chevrolet roadster of the Milton Auto Company.

A daughter, Gloria Meech was born to Mr. and Mrs. David Woolsey on the morning of July 4 at 5 o'clock.

The members of St. James's Church celebrated the opening of their new hall Tuesday evening, July 3. The celebration was held in the hall. In addition to games and other amusements there was a beautiful display of fireworks at St. James's park and dancing in the hall. Music for the occasion was furnished by Enright's orchestra of Newburgh.

Mr. and Mrs. Henry Visconti, who have been spending their honeymoon at Jamaica, L. I., have returned home.

Kills Pesky Bed Bugs P. D. Q.

Just think, a 35c box of P. D. Q. (Pesky Devil's Quinine), makes a quart, enough to kill a million bed bugs, roaches, fleas or cockroaches and stops future generations by killing the eggs and does not injure the clothing.

Liquid fire to the bedbugs is what P. D. Q. is. When bedbugs stand on good cleaning is a powerful ally in a justly formed host. P. D. Q. is in every package of P. D. Q. to ensure to kill them and their eggs in the cracks. P. D. Q. can also be used in a special bottle. Double strength. Liquid form.

McBRIDE DRUG STORES.

PLATTEKILL.

Plattekill, July 9.—The Rev. and Mrs. H. O. Nagle, who are on their honeymoon will be at home at the parsonage after July 15. Congratulations are extended.

Miss Augusta Baxter underwent an operation for appendicitis at St. Luke's Hospital at Newburgh last week. Her many friends wish her a speedy recovery.

Miss Alice Kortright of New Paltz spent the early part of last week with her cousin, Miss Glensie Wager.

Mr. and Mrs. John B. Minard entertained company at their home Wednesday evening.

Eugene Pugsley and family are moving to Newburgh this week, their home in Plattekill having been sold.

A large crowd of girls have arrived at "Sunset Camp," formerly the Daily farm.

OLIVE BRIDGE.

Olive Bridge, July 9.—A stereopticon lecture will be given in the I. O. O. F. Hall Tuesday evening, July 10, at 8:15 o'clock, standard time. The subject, "Man, God's Partner," is beautifully illustrated by forty slides, each one a piece of art. Two illuminated songs accompany the lecture. The same lecture will be given in The Vly Church on Wednesday evening at the same hour. After the two lectures refreshments will be sold. On Thursday evening at Brodhead school house at Pacoma on Friday evening the lecture will be repeated. Everybody is cordially invited to attend any of the above lectures.

FRANK CIDER TO CURE IVY POISON

Frank Hembe, whose home is wherever he is working, discovers new cure, but is arrested for over-dose—other drunks in police court.

Frank Hembe, who informed Judge Schrick in police court this morning that his home was wherever he happened to be working, became ill from poison ivy on Monday and to cure himself started drinking hard cider. The "medicine" tasted so good that he took an over-dose and as a result was picked up drunk on Delaware avenue, near Broadway, by Officer Roedel, who found Frank in company with Thomas McSpirt, who was also arrested.

Hembe said he had a steady job as a state road construction work this side of Catskill, but had come to Kingston to find a cure for the ivy poison. Judge Schrick imposed a fine of \$10 but suspended payment until Hembe left town at once.

Thomas McSpirt, who has been in court before, claimed he was not drunk and his hearing was held open until Officer Roedel could appear in court against him.

Adolph Hansen of Rifton was found drunk downtown by Officer Dempsey Monday evening. This morning on his promise to return to Rifton a fine of \$10 was suspended.

Martin Eckinal, from New York City, was arrested Monday afternoon by Motorcycle Officer Patum who charged the New Yorker with speeding 32 miles an hour. He furnished cash bail for his appearance later.

MINE FACTIONS ARE FAR APART

Operators Balk At Wage Increase and Collection of Union Dues—Both Sides Assert Their Firmness But Don't Expect Strike.

By Telegraph to The Freeman.
Atlantic City, N. J., July 10.—With nine of the original eleven demands of the United Workers opposed, a subcommittee of anthracite coal operators and union heads continued in conference here today in an effort to establish an acceptable working contract.

The wage question—a demand for a 20 per cent increase—and the miners' demand that their union be recognized without qualification were the stumbling blocks in the path of peaceful settlement.

The two union demands already met by the operators are:

Speedy adjustment of disputes under contract.

The speedy abolition of the 12 hour day, where now in force.

It was expected the conference would continue at intervals, until late August. The new contract must be written by August 31, the miners state. Failure of the operators come to agreement before that date may mean a strike the miners said.

Little fear was felt, however, over the eventual outcome both sides today privately expressing optimism, despite their assurances they would "stand firm."

RANDEGGER RECITAL AT SAHLER'S ON WEDNESDAY

The Sahler summer school, of which Miss Villa Faulkner Page is teacher and lecturer, for the opening week beginning July 8, the school to continue to August 5, is meeting with a large attendance.

STAMFORD CLUB HERE TOMORROW

On Wednesday afternoon at the Fair Grounds at 6:15 the Stamford baseball club will come to this city for first game of a six game series. Although Stamford has not had a great deal of success on the diamond thus far this season she demonstrated that she has some latent ability when she held the strong Oneonta club to 2-1 and 5-3 scores. This ability which seems to be lying underneath the surface at the present time may come to the fore soon and when it does there is going to be some trouble for the opposing team.

ROOMS MAY BE LISTED AT "Y. W."

The Young Women's Christian Association of this city has inaugurated a room registry. Those who have rooms to rent furnished or unfurnished may leave their names and addresses at the Y. W. C. A. headquarters, 14 Henry street, telephone 1911, and their rooms will be visited by a competent person from the Y. W. C. A. If satisfactory the address of the person having the room or rooms to rent will be kept at the Y. W. C. A. headquarters, together with the price of the same, and girls or young women now in the city or coming here and wanting rooms will know that if they are sent somewhere from the Y. W. C. A. they will be comfortably and safely cared for at such a price as they wish to pay. There will be no fees either to the persons renting rooms or to the applicants for rooms, charged by the Y. W. C. A.

MRS. BUZZI RELIES ON CARDS

By Telegraph to The Freeman.
Auburn, N. Y., July 10.—Mrs. Anna Buzzi peered from behind the curtained bars of Auburn's death cell today—and laughed.

"I will not die in the electric chair—the cards tell me so," she said.

Mrs. Buzzi, sentenced to death for the killing of Frederick Schneider, wealthy contractor, had spent her first night in the prison's death house.

She was "dressed in" last night. The modish black dress, which made her appear much more slender than she looks in the drab prison garb worn by all women at Auburn, was taken away. The wide brimmed hat, the black jet ear bobs, and the sheer black hose, were held in the prison property room.

"But let me have my deck of cards," Mrs. Buzzi asked Warden L. S. Jennings.

"The cards told me I was due for a disappointment during my trial—now they tell me my innocence will eventually be proved," Mrs. Buzzi said, her smile growing to a happy little laugh.

Lightweight Frock of White Crepe de Chine

This charming lightweight summer frock of white crepe de chine printed in black is trimmed with a plastron of pure white, edged with loops of green grosgrain ribbon.

Fashion Notes That Interest All Women

What will next year bring—a plump, figured miss, perhaps? That's the gossip now among the designers.

The woman who likes unusual things will choose an exotic Hindoo choker necklace of carved wooden and brightly colored glass beads.

Barundalki, a new summer fur, is really just old-fashioned chipmunk; the little striped animals that are seen scampering about the woods of the Northwest.

Hoop earrings are being revived again! They come in jet, silver filigree, metal hoops set with Egyptian stones and jade. They are said to be newer than the pendant earrings for summer wear.

Forty is called the dangerous age for women. It certainly is if they depend upon their girlish charm for happiness. But the woman who dresses and acts in accordance with her years knows no dangerous age, for she always can be attractive. She puts aside girlish chatter for soft, intelligent conversation and she lets the younger women bear the responsibility of the bobbed heads.

Crepe de chine makes a beautiful and serviceable dress for the summer days, as it can be fitted in colors and used as a dance frock. The simple crepe de chine gown is very popular this season and white is one of the season's best sellers. Of course, one could also have a plaited crepe de chine frock and this could be used as a sports frock later on if worn under a colorful jacquette.

The matronly woman who attempts to wear the tenuous attire of the young girl adds years to her age. There is nothing sadder in the world than a woman who refuses to grow old. One may see examples of these women often, old women who cling to their youth and dress in ridiculously youthful clothes. Often their hair is bobbed in the latest cut or frizzed about their fallow faces in dyed shades that draw immediate attention to their withered skins.

Invisible corsetry is the aim of the best corset creator—a happy example is in the "wrap around" model. It is very quickly adjusted; merely "wrap it" and "snap it" round the figure, the elastic sections alternating with coutil only stretching sufficiently for this purpose. For this reason it is an improvement on the "pull-on" corset, as there is not a trace of lacing anywhere, and not a line shows through the gown, a precaution rendered doubly necessary by the sheathlike draperies.

Summer Costumes of Taffetas or Alpaca

We are now in a period of graceful and uncommon new summer costumes of taffetas or silk alpaca—the latter one of the most popular materials of the season says a Paris fashion writer in the Boston Globe. The style I have in mind is for the afternoon, and consists of a draped dress, almost always sleeveless, and a loose, very pleated, coat. This coat is knee length. Frequently it is uneven at the hem, cut up in vandykes as our skirts of last year used to be.

The draped dress is exactly the right thing to wear at a dance-tee, with the loose coat thrown aside. The whole costume is smart enough to be worn at the most fashionable race meeting. Dresses draped up in front are immensely popular. They have a youthful appearance which appeals to most women and they are really quite easily arranged, even by amateur hands. If a skirt alone is in question it must be cut straight and rather narrow, gathered at the back and sides and almost plain in front. There may be a slit in front where the folds are drawn up slightly, or the skirt may be round and simply gathered up under a buckle, clasp or rosette. The gathers may be hidden by folds of the material.

In Paris they are using a great deal of a new crepe taffeta which had a dull, rather thick, surface. In fact the silk looks like a specially good crepe.

Dances at Sawkill.
Every Wednesday and Saturday evenings for the remainder of the summer months a dance will be held in St. Ann's Hall, Sawkill. The large number of summer boarders requested the pastor, the Rev. A. Cahill, of St. Ann's Church, to conduct the dances twice a week.

WALL STREET TOO MUCH FOR BURKE

U. S. Treasurer, Telling Of Bankruptcy, Says He's Lost Even Life Insurance.

By Telegram to The Freeman.

New York, July 10.—Three times governor of North Dakota, and once presidential "dark horse" John Burke, a tall, gaunt, western-looking man of 64, today is broke, ruined on Wall street, and facing prosecution.

"I have lost everything, even my life insurance," said Burke.

He went to the district attorney and offered to waive immunity and all the grand jury all he knew of the affairs of the bankrupt stock brokerage firm of Kardos and Burke.

Burke said he joined the firm largely on the advice of his brother and knew little of the methods alleged to have been employed by the company.

Burke resigned as treasurer of the United States in January 1921, to enter the Kardos firm, which failed in February, 1922 for \$2,156,985.

As treasurer of the United States, Burke in seven years handled \$262,000,000.00 of Uncle Sam's money, and handled it well, but when it came to handling his own personal fortune he proved to be a dismal failure.

COOK COUNTY FACES

FIRST HANGING OF WOMAN

By Telegram to The Freeman.

Chicago, July 10.—"What did those men say?"

These words in broken English were the first utterances today of a small, stocky Italian woman when she awoke from a night of restless tumbling on her cot in the Cook county jail.

The woman is Mrs. Sabella Nitti-Crudelle, who leaped into prominence as the first white woman ever condemned to death in Cook county. A jury found her guilty of murder in the first degree for the slaying of her first husband, Frank Nitti, and sentenced her to the gallows.

No one has had the courage to tell the woman that she must die at the end of a hangman's rope. They dread that the effect on her may be when she knows.

The woman and her second husband, Peter Crudelle, formerly her "star boarder" were convicted and sentenced to death.

Mrs. Crudelle's first husband, Frank Nitti, a farmer was slain by the police according to the state July 29, 1922. Nine months later his widow and Crudelle were married.

No date for the execution has been set.

PASTOR ALONE BATTLES THIEVES: FORGIVES THEM

By Telegram to The Freeman.

New York, July 10.—Although not yet out of danger from injuries received when, unarmed, he battled six thieves who had entered his home, the Rev. Dr. John H. Kerr, Brooklyn pastor, from his bed today sent out a message of forgiveness for the men who attacked him.

The minister is covered with scalp wounds and contusions, the result of being repeatedly struck with an axe. He surprised the thieves, after they had ransacked his parsonage last evening.

LEVIATHAN STOPS AT CHERBOURG

Makes Average of 23 Knots an Hour—Not Disturbed by Reports of Deserter in Crew.

By Telegram to The Freeman.

Cherbourg, July 10.—The giant American steamship Leviathan arrived here shortly before noon today. Eight hundred passengers disembarked and were taken to Paris in four special trains. The ship then continued on its way to Southampton.

The Leviathan left New York July 4. This is her first trip as a passenger liner under the Stars and Stripes.

None of the Leviathan's officers appeared disturbed at reports Scotland Yard men planning to board her at Southampton with warrants for a number of the crew alleged to have deserted from British ships in New York.

At Cherbourg the Leviathan had covered 2,339 miles in slightly more than 138 hours for an average speed of well over 23 knots for the distance.

Yesterday the Leviathan covered 561 miles, a record day's distance on the voyage.

The round trip will cost about \$400,000. It was announced by Captain Hartley. Of this \$120,000 will be for fuel.

TO OFFER MINERS 5 PER CENT MORE

By Telegram to The Freeman.

Atlantic City, N. J., July 10.—Representatives of the anthracite operators and a sub-committee representing the United Mine Workers will hold their first conference to settle the nine disputed demands of the coal workers here this afternoon.

S. D. Warriner, Philadelphia, was named head of the operators committee. W. J. Richards of Cottoville, Pa., W. W. Ingles, Scranton, Pa., and A. B. Jessup, Hazleton, Pa., are the other committeemen.

The union forces will be headed by John L. Lewis, international president. J. Brennan, Chris Golden and Thomas Kennedy will serve with Lewis.

The operators, it was reported, plan to offer the workers a five per cent wage increase. This concession is expected to be rejected.

It was said the operators were prepared to refuse the demand of the miners that the union be recognized without condition.

KIRKWOOD SETS COURSE RECORD

By Telegram to The Freeman.

Inwood, Country Club, Far Rockaway, N. Y., July 10.—Joe Kirkwood, New Yorker, formerly of Australia, set a new course record for Inwood today when he made his morning round in the national open golf championship in 70, leading the field.

Jim Barnes, two years ago played a 68 on the old Inwood course, which was 600 yards shorter than the present playing field.

Kirkwood covered 6,632 yards in his 70 score today.

Kirkwood's home nine of 33 had five threes in it. He played remarkable golf and did not miss a shot until his drive off the eighteen tee which was cut into a trap so that he was forced to play his second shot of the brook. He had a 12 foot putt for a 69 and came within three inches of holing it.

Par for the course is 72.

Jesse Sweetser, national amateur champion, seemed certain of qualifying, returning a total of 78 for the morning round. After his disappointing 42 for the first nine, he came in with a splendid 36 for a total of 78. He played each of the last nine holes in four.

Francis Ouimet, the Boston amateur took 80 and John Black of Wichita, Kansas, who finished second, took 76.

FINANCIAL AND COMMERCIAL

By Telegram to The Freeman.

New York, July 10.—Irregularity marked trading at the opening of the stock exchange today. Fluctuations were narrow and transactions were mostly professional. U. S. Steel yielded 3/4 to 91 1/4 and Bethlehem Steel 1/4 to 45. Crucible rose 3/4 to 65. Anaconda lost 1/4 to 39 1/2. Inspiration 1/4 to 25 1/2 and Chile Cooper 3/4 to 25 1/2. Studebaker was off 3/4 to 102; Chandler Motor 3/4 to 50 1/2 and Willis Overland at six and Kelly Springfield Tire at 33 1/2 were unchanged. Royal Dutch was strong, advancing 1 point to 46 1/2. Other oil stocks were irregular. Railroad stocks were steady.

Irregular price movements characterized the early trading. In the second hour, however, rallying tendencies were noted in many sections which wiped out a great part of the early losses. Most of the oil shares displayed heaviness with losses ranging from a fraction to 1 point. Steel, copper and equipment stocks were not much changed, but motors stocks were under moderate pressure with Chandler Motors at 50 and Mack Truck at 70 down a point or so.

The market continued dull but steady throughout the afternoon session, with small fractional changes. Studebaker at 102 1/4 and Baldwin Locomotive at 115 were fractionally lower. Delaware and Hudson at 103 was about 3 points higher.

ANOTHER INDICTMENT AGAINST "DOC" COOK

By Telegram to The Freeman.

Cleveland, July 10.—Dr. Frederick A. Cook, who gained international fame by "discovering" the North Pole, was this afternoon indicted by a federal grand jury here charged with using the mails to defraud in offering for sale stock of the Mid-American Oil and Refining Company. Twenty-three employees were jointly indicted with him.

Cook is now under indictment at Fort Worth, Texas, where he is scheduled to be tried in September on a similar charge.

Where He Stood on Money Question.

Judge Edwin Lamar Davis, congressman from the Fifth district of Tennessee, is one of the best story tellers in Congress. At a recent Jackson day dinner in Ohio he told this story of former Gov. Bob Taylor of his own state to illustrate the promises made by the Republicans in the campaign of 1920, saying that all conflicting elements were brought together by promising them everything they desired.

"Back in the days when the money question was the paramount issue and every candidate was required to announce whether he was for the gold standard or the free coinage of silver, Governor Taylor was a candidate for office. On one occasion he was making a speech and was about to conclude without any reference to the money question, when a man in the audience called out:

"Bob, tell us where you stand on the money question."

"I am glad you reminded me of that," Governor Taylor replied, "and I will be glad to tell you. I am for a little more gold, a little more silver, a little more greenbacks and a little sprinkle of counterfeit." — Chicago Journal.

And What Would the Papers Do?

If it were not for our mistakes life would be pretty monotonous.—Boston Evening Transcript.

the fair equivalent of former gold marks at four to the dollar.

Furthermore all pipe dreams are too good to be true. They are not what they seem. The smoke is wafting off in Germany and they are coming down to earth with a dull thud. It is beginning to be realized that the net result of a paper money nightmare is that producers are robbed and speculators enriched. Farmers are unable to raise prices for their products fast enough to keep up with the falling purchasing power of un-sound money. The value of such money slips away from them like a handful of dry sand. It brings back to them less in purchases than they gave of their products to get it.

The farmer as a result can't make ends meet and when he gets into difficulties the un-sound money speculator steps in and buys up mortgaged farm lands cheap—and thus it is mostly the speculator who profits by paying off the mortgages with currency worth less than a dozen eggs, unless the courts stop him.

More than that, if farm mortgage debt can be paid off with almost worthless currency, so can corporations pay off their bonded debt, the bonds in which many a farmer's savings, and many a widow's and orphan's inheritance, are invested.

Before the war, with marks worth 24 cents gold, the deposits of the thrifty in German savings banks were worth over five billion dollars. Today, although these deposits have multiplied many fold in terms of marks, their real value is only about half a million dollars gold. That is what a "loose money" plan does for common folks.

Pipe dreams are wonderful while they last—but shattered health, misery and despair are the final penalty. The ones who profit are the dope sellers. Un-sound money is a pipe dream—and the penalty is economic ruin, misery and despair for the majority. The ones who profit are the speculators.

Here is where the pipe dream gets particularly good. The 1913 mortgage is now due.—20,000 marks are to be paid. Marks are quoted 120,000 to the dollar. Twenty thousand marks, one-sixth of that, therefore equal one-sixth of a dollar.—16 2/3 cents. On the theory that "a mark is a mark," the debtor could wipe off his \$5,000 mortgage for 16 2/3 cents—less than the value of a dozen eggs.

That is, he can unless the pipe dream comes to a sudden end. For one thing the German courts are ruling that the theory "a mark is a mark," doesn't go.—that a debtor has to give back a fair equivalent for what he received and that present paper marks worth 120,000 to the dollar are not

Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

FAIRY QUEEN'S TRIP

The Fairy Queen thought she would take a trip to a zoo as she said she wanted to see some of the members of the Crane family and birds of all kinds.

"I'm very shy," said the Sand-Hill Crane. "I do not care to talk to many but as you are a fairy you will not frighten me and you will not frighten the White Crane who is just as shy as I am."

"Indeed I won't frighten you," said the Fairy Queen. "I just wanted to wave my wand of greeting as I went by."

"So nice of you, so nice of you," said the Sand-Hill Crane.

"Of course," the Sand-Hill Crane continued, "we are always being mixed up with herons. Anyone ought to be able to tell us apart when we're flying and then it is that we are so often mistaken, I believe."

"Perhaps," the Fairy Queen said, "others do not know how different you

"Indeed I Won't Frighten You."

are and if they don't know it is rather hard for them not to mistake you."

"If I weren't so shy," said the Sand-Hill Crane, "I would tell them that flying cranes can be recognized because we fly with our great long necks sticking out in front of us and the herons hold their necks back. Then we are also mistaken for the geese. It is true that we are like some members of the Goose family in our ways. We, too, like cornfields but when we fly we fly differently from the geese. And it is even then that we are mistaken. Only in this case the secret is to be told by our legs and not by our necks. We fly with our legs behind us. I don't mean we leave our legs behind us in another place."

"Oh, I quite understand that you don't do that," said the Fairy Queen. "Well, I thank you for talking to me and I will tell as many as I can of these things you've told me."

"Fairy Wondrous Secrets takes many messages about for me and so does the Dreamland King, and there are others. Yes, we have messengers, we fairies!"

Then the Fairy Queen went to see some bird cousins of the Cranes known by the wonderful names of Carliana and Chunga. And she saw the Keka bird from New Zealand who could not fly but who was a great climber. She saw the Australian Wonga-Wonga with his white forehead and his fat body.

And she saw Crested Touroco of the great Parrot family, who did his favorite trick for her amusement.

This trick was to stand with his three toes pointed straight out ahead of him.

Then he moved so as his other toe was turned back and looked as though it had disappeared.

The Fairy Queen loved that trick and enjoyed seeing it again and again. One of the Parakeets was looking after some little ones in a small nest in a box in her cage. The Giant Kingfisher or Laughing Jackass laughed for her amusement too.

"I'm from Australia," he said, "though I have a cousin in these parts known as the American Kingfisher, but I'm larger than he is."

And then he laughed and laughed and laughed.

"Nothing like laughing at your own jokes," chuckled the Fairy Queen. "I laugh at them," he said, "because often I have no others to laugh at and I find mine do as well as any, ha, ha, ha."

SUMMER DISHES

During the warm weather when salads, crabs, lobsters and croquettes are so often served, the following sauce will be enjoyed:

Epicurean Sauce.—Take one tablespoonful of tarragon vinegar, two tablespoonfuls of horse-radish, one teaspoonful of dry mustard, a few grains of cayenne and a cupful of whipped cream with three tablespoonfuls of mayonnaise. Mix the seasonings together and stir into the cream and mayonnaise. Serve with cold lobster, crab cutlets or croquettes.

Mint Jelly.—Take good sour apples, cut up without peeling and cook until mushy. Drain through a jelly bag and allow to stand over night. Measure the juice and add a bunch of mint leaves. Boil hard for twenty minutes, skimming frequently. Allow three-fourths as much sugar as the amount of original juice. Beat the sugar and add, then boil five minutes, or until it jellies. If desired a bit of green coloring may be added. Pour into glasses and cover with paraffin when cold.

Another delicious jelly may be made by adding a rose geranium leaf to the boiling juice instead of the mint.

Lamb With Olives on Toast.—Chop roast lamb and add gravy to moisten; if no gravy, add cream. Chop half a cupful of green olives, season with pepper and salt and when well-heated serve the mixture on rounds of buttered toast.

Chocolate Dates.—Remove the seeds from clean dates and stuff some of them with pieces of marshmallow, others with raisins, candied cherries and nuts. Melt sweet chocolate and into this dip the prepared dates.

Green Corn Griddle Cakes.—Take one cupful each of grated green corn and milk, a little salt, one-half teaspoonful of baking powder, one egg beaten well and sifted flour enough to make a thin batter. Cook on a hot griddle and butter the cakes while hot.

REPAIRING ROAD SOUTH OF PT. EWEN

A gang of men are busy repairing the state highway below Port Ewen in the town of Esopus. The road is being given a coating of fine gravel and oil to "smooth out the rump" and the shoulders which have become very much cut up are being repaired and the road widened. The work of widening out the road was commenced last season and is being continued this summer.

COLLISION AND IS FINED

At Centerville Saturday night Edward Pavlovich of Cementon driving Ford car toward Woodstock attempted to "cut in" on a Buick car driven by Highway Superintendent M. Veder and a Star car occupied by Henry A. Williams and family of Kingston street, Saugerties, resulting in a general smash. Williams' car was wrecked. Pavlovich's car was slightly damaged. Pavlovich was fined \$15 by Justice Abel Saugerties. He also agreed to pay all damage done to the Williams car.

MORE SIPHONS FOR SCHOHARIE FLOW

The construction work which has been going on for some time at Brown's Station just below the main dam has caused a great deal of comment and speculation as to just what it is. The contractors are busy installing additional siphons to take care of increased water demands, which will be necessary when the Schoharie water works are completed. The aqueduct which was built from Brown's Station to New York city will take care of a considerably greater amount of water than the present siphons from the Ashokan can convey and the new siphons are being installed to provide means of sending water through to the full capacity of the aqueduct. When the new siphons are installed they will have a capacity greater than the present aqueduct. The siphons are iron pipes which convey the water from the gate houses into the aqueduct proper.

REV. MR. HENRY DOES BIG WORK AMONG ALIENS

His Community Home on New York's East Side Dedicated.

From the football field to a Bowery parish on the lower east side of New York city is not such a novel experience. However to stay there for twenty-five years as a pastor in a community of 416,000 persons, only 9,500 of which are born of native parentage, is an achievement worthy of note. To be a minister of the gospel for that length of time among the Russian Jews, Italians, Slavs and Chinese tests a man to the limit.

The dedication of the new five-story community house of the Church of All Nations of the Methodist Episcopal Church at Ninety-second street, New York city, shows that the Rev. John R. Henry has stood the test and made good.

DE GARMO BUILDING WINNISOOK PHONE LINE

Fred DeGarmo, electrical contractor, of 73 Albany avenue, went to Big Indian today with a gang of men to start the construction of a telephone line from Big Indian to Winnisook Park. It will require 18 miles of wire. Mr. DeGarmo has done considerable electrical work in this city and in the surrounding country during the past year or more.

START STATE POULTRY SURVEY

Work Is Being Done Through County Agricultural Agents And Farm Bureaus—The Plan.

A state-wide survey of the poultry business in New York is now being conducted to determine whether co-operative marketing is practical for poultry products.

The work is being undertaken by the state poultry council, the county agricultural agents, the state college, the marketing committee of New York state poultry federation, the county poultry committees, and, in some sections, the rural schools.

The county agents are furnished blanks for each poultryman in his county. Community leaders in the various sections of the county will be given lists of persons to whom blanks have been sent, and they will endeavor to follow up the work and see that the information is supplied. The work of summarizing will be done at the state college at Ithaca.

"What the outcome will be no one attempts to predict," say the poultrymen at Cornell. "It will, however, give the necessary information concerning poultry production and distribution methods which will be a guide to sound economics and development of the industry. This survey involves much detail, but fewer pitfalls will be encountered in developing a successful marketing program if complete facts can be obtained."

FALLS 15 FEET, STRIKES HEAD; IS RECOVERING

Benjamin Storms, Picking Cherries, Has Close Call.

Benjamin Storms of 31 Taylor street had a narrow escape from a fractured skull, if not from death, Monday evening when he fell from a cherry tree. He was picking cherries on shares from a tree on the premises of Supervisor J. Charles Snyder at 315 Washington avenue when he slipped from a limb and fell a distance of about 15 feet. Mr. Storms landed head-on, striking the top of his head just above the forehead against the edge of a flagstone of a sidewalk running alongside the house. Mr. Snyder who was in the house at supper, hearing a noise as the falling man struck the stone, went out and seeing Storms lying unconscious picked him up and sent for Dr. E. H. Loughran who gave surgical attention and found it necessary to take four stitches to close the deep gash that ran up from the top of the forehead onto the scalp. Storms was semi-conscious for a few hours but is reported getting along satisfactorily. He is employed at the Thomson laundry on Clinton avenue.

KAUFFMAN CASE HINGES ON NEGRO'S ARREST

By Telegraph to The Freeman.
Scarsdale, N. Y., July 10.—Without a clue to the identity of the murderer of pretty 21 years old Dorothy Kauffman, Monticello girl, hatched to death at the country home of Magruder Craighhead, New York broker, authorities here today threw out a dragnet for every suspicious character and vagrant in Westchester county.

Hope of solution of the crime, police say now depends upon the arrest of a negro seen near the Craighhead home on the day Miss Kauffman was murdered. They have a good description of the man.

**WOMEN MAY NOW WEAR
SMALLER SHOES**

Treatment With Carter's Actually
Makes Feet Smaller.

NEW USE FOR WELL KNOWN
REMEDY.

Women who have been looking wistfully at dainty feet show in the popular new fancy slippers will welcome this little bandit secret. Many of these dainty, small-looking feet are larger than yours! The reason they are able to wear such small sizes with such apparent comfort is because they are keeping their feet fit! There are several ways to do this but messy baths and ill smelling oily preparations certainly do not appeal to the women of refinement. Hundreds of women however, are able to wear smaller, snarler shoes, because they took their bottles of Carter's Liniment from the medicine closet and put this well-known remedy for aches and pains to a new use. Rub the feet well with a generous application of Carter's and you will quickly relieve the tired, aching, burning condition that feet get into in summer time. Swelling is so reduced that smaller sizes in shoes are comfortable possible. It is a good thing to know that Carter's is a sterling foot remedy as well as a remedy for all aches and pains because it saves the expense and bother of experimenting with unknown and untried articles. Carter's is a flesh tint in color, is agreeably perfumed, does not sting or smart, contains no oil or other substance to skin chafing—and it certainly is a Godsend to tired, aching, burning feet. It's only fifty cents at any drug store.

'MISSING LINK' KEPT IN VAULT

Scientist Asks That Remains Be
Shown to Experts.

KNOWN AS THE JAVA APE-MAN

Five hundred thousand years after its existence, the fossil of a Java ape-man, commonly called a "missing link," bridging the gap between ape and man, may soon be exhibited to the gaze of the world's scientists.

Dr. Henry Fairfield Osborn, president of the American Museum of Natural History, New York, is heading a movement to have Dr. Eugene Dubois, Dutch scientist, unlock his safe vaults containing the remains of the animal which at the end of the Pliocene era walked upright and had a brain similar to that of modern man.

For some reason, Doctor Dubois, the discoverer, has refused to exhibit the bones he found in 1893 near Trinil, in Java. A thighbone, the top of a skull, and two grinding teeth were all that 5,000 centuries had left of what Doctor Dubois described as the ape-man.

Scientists Stirred.

Scientists of two continents were stirred when the fossils were shown by Doctor Dubois at the British Association for the Advancement of Science. But there was universal surprise when Doctor Dubois, after his lecture, wrapped up the bones of the creature that roamed the earth long before the first glaciers swept prehistoric Europe, and carried them off to his Haarlem safe.

Plaster casts of the skull top and teeth and photographs of the thighbone were taken.

These were put at the disposal of scientists, and in New York Dr. J. H. McGregor of Columbia university, expert restorer of fossils, using the top of the skull as a base, reconstructed the skull and then built the head of the ape-man.

This, after exact measurements of the brain cavity, resulted in the discovery that the brain of this prehistoric creature was one not heretofore known. It was smaller than that of a man, yet larger than that of any known ape. It had measured about 850 cubic centimeters, while that of a man averages between 1,300 and 1,600. The ape's is never larger than 600.

Ape-Man Walked Erect.

From the photograph of the thighbone, Doctor McGregor made a cast, and from this deduced, after careful examination, that the man-ape walked erect and was about five feet six inches tall, but that while already remote from the ape, was not yet a man.

Another scientist, Dr. William K. Gregory, curator of the department of comparative anatomy at the American Museum of Natural History, studied the teeth carefully. His verdict was that they "mingle and combine, in a remarkable way, human and ape characteristics."

There has all along been some controversy why Doctor Dubois should keep so valuable a scientific relic from the world. In the meantime, the ape-man holds undisputed place as probably the link connecting the Pithecanthropus man living before the first glacial period and the Heidelberg man of that period, say 250,000 years ago.

HERE'S A REAL BULL STORY

California Auto Forced to Do Battle With Enraged Animal.

Albert Waltenspiel, clerk in the Southern Pacific roundhouse at Sacramento, Cal., has learned something about bulls.

Waltenspiel recently cranked up his automobile, make not mentioned, and set out for Jackson, On the way up to the mountain town he espied a bull busy throwing dust over his back and imitating a Nubian lion in tone of voice. By careful manipulation of the machine Waltenspiel was able to escape.

Not so on his return trip. The bull held full possession of the road, and snorted his defiance as Waltenspiel approached in his car. Undecided, he halted his steed and waited for developments, which were soon forthcoming. With lowered head the bull charged the auto and rammed a long horn deep in the radiator. A flood of hot water spouted out, and with surprise in his voice the bull turned and fled for a cooler climate.

The automobile is now in the repair shop and Waltenspiel jumps every time he hears a hellow.

ADVERTISES FOR BURGLAR

One So Expert Responds That He Gets Regular Job.

"I want a reliable burglar who happens to be out of jail," read a recent application to the Berlin police from a jeweler, proprietor of a big new establishment on Rotsdamer Platz.

Inquiry showed that the dealer wanted an expert cracksmen to test the safety appliances and locks of his new establishment. The detectives were able to supply a man who within one hour displaced one of the iron bars which safemakers had guaranteed to be thief-proof, and in a short time made his way into the shop.

He offered so many suggestions about safety devices and alarms that the jeweler has employed him regularly to inspect the construction work—under the supervision of the proprietor.

Her Opportunity.

Betty, aged four, was not allowed to go visiting alone. Seeing her one morning going from house to house spending but a few minutes at each, I asked her what she was doing.

"Well, mother's away and can't speak, so I fought I'd call on all the ladies."

MANY HAVE BLOOD OF BURR

Numerous Descendants of Man Whose Character Has Been a Subject of Wide Controversy.

A newspaper paragraph says that Senator Carroll S. Page of Vermont has a grandson who is a cousin of Aaron Burr. The context makes it appear the thought is that cousins of Aaron Burr are few and far between. The reverse is the truth. There are hundreds and perhaps thousands of Americans who are blood relatives of this stormy petrel of American life.

To use the customary but brouillie manner of speaking, you can't throw a stone anywhere in America without hitting one of Aaron Burr's cousins. They are or are not proud of the relationship, according to their inherited viewpoint, but most of them are proud that they can trace their relationship to Burr through the family of Jonathan Edwards, who was Aaron Burr's grandfather.

Jonathan Edwards is buried in a churchyard at Princeton, N. J., and his grandson, Aaron Burr, lies alongside of him. Edwards had a brother or two and ten sisters, every one of whom married and became father or mother to a large family of children. In the case of the Edwards sisters personally the word large can be used entirely properly in a physical sense. The average height of these ten Edwards girls was six feet. They were known collectively as "Jonathan's sixty feet of sisters."

At one time in this country there were seven presidents of American colleges who were of the Edwards blood, and cousins of Aaron Burr. There are in Chicago several families whose members are direct descendants of the Edwardses and therefore who, if they so wish, can claim kinship to Burr. It is believed that there are more Americans of the Edwards blood than of the blood of any other one American family. Kinship to Aaron Burr therefore necessarily is a common holding.—Chicago Evening Post.

Son of Princess Mary Not a Prince.

The baby son of Princess Mary and Viscount Lascelles, and the first grandchild of King George, is not a prince. Under letters patent issued in 1917, defining the style and title to be borne in future by members of the royal family, it is declared:

"The children of any sovereign of the United Kingdom and the children of the sons of any such sovereign and the eldest living son of the eldest of the Prince of Wales shall have and at all times hold and enjoy the style, title, or attribute of royal highness, with their titular dignity of prince or princess prefixed to their respective Christian names, or with their other titles of honor; that save as aforesaid the titles of royal highness, highness, or serene highness and the titular dignity of prince or princess shall cease, except those titles already granted and remaining unrevoked."

Heard on the Highway.

The Fredonia Herald says it took a long time to locate "the laziest man in the country," but—

"You guessed right, gentle reader; that man is none other than Delbert Russell. Listen to this: Whenever Mrs. Russell accompanies him in the car and he has the trouble Ray hides in the weeds somewhere, leaving his wife alone in the car. The first man who comes along and sees the lady alone in the car just naturally stops and fixes the tire. As soon as the friend in need departs our hero steps out and starts on his way."

But a contemporary says it wouldn't call that brother "lazy."—he's a genius.—Atlanta Constitution.

CITY HOSPITAL ANNUAL MEETING

Re-Elected To Board Of
Managers—Largest Earnings Ever
Reported—New Construction Near
Finished—Officers' Reports.

The annual meeting of the managers of the Kingston City Hospital was held at the hospital on Monday evening at 8 o'clock. At this meeting the following were re-elected as members of the board of managers: Dr. A. A. Stern, Dr. E. E. Norwood, Dr. T. McGill and Dr. E. E. Norwood. George Burgevin presided at the meeting as chairman and Dr. A. Stern as secretary.

Following the election of the three managers the officers presented their reports for the year ending June 30. Judge James A. Betts, the president, reported as follows:

In conformity to the by laws of the institution I respectfully submit an annual report of its condition and work.

Again we urge upon our citizens the desirability of making our hospital. The payment of \$20 by any physician and the payment of \$25 by any other citizen entitles any person a life membership in the hospital with a right to take equal part with any other members in the hospital work, also the payment of \$10 by any person will entitle that person a member of the hospital for one year with the same privileges as are enjoyed by members.

The president and managers urge a continued effort be made to increase the number of members of the corporation.

We have received donations during the past year, aside from those contributed into the building fund, as follows: C. Hillebrand, Dry Dock Company, \$100; Samuel Golding, \$50; total \$150.

There have been subscriptions and donations to our building fund of \$1,007.94.

We have received legacies and bequests for the building fund amounting to \$4,752.28.

\$2,500 of this amount was bequeathed by the late Watson M. Freer; \$2,252.28 is an additional amount received from the estate of the late Fannie E. Anderson, making a total amount received from this generous donor to the hospital of \$2,252.28.

The addition to the hospital which is under way at the time of our annual report, which was in October, is now nearing completion. It features a large, convenient hospital ward, which will be completed and furnished with over ninety beds for patients. More than once during the past year our hospital has been filled that we have been unable to take applicants for a time.

The total receipts of the hospital, aside from the building fund for the year amounted to \$56,337.21, which is the largest earnings the hospital has ever had.

The number of donations of \$100 and over received prior to July 1, 1923, numbered considerably over one hundred.

\$11,000 from our earnings have been carried to the building fund during this last year and helped to meet the addition to our hospital. The mortgage indebtedness on the hospital property is \$10,000, and we have borrowed for building purposes only \$5,000 so far, and it is thought that the completion of the building, furnishing, etc., will cost from \$12,000 to \$15,000. It could be very gratifying if this amount could be furnished your managers without the necessity of borrowing any more money. Considering the high cost of building, we feel that we have had wonderful success in accomplishing the results reported to you without any greater borrowing of money.

Our citizens have been wonderful liberal with us and we feel that the money so generously contributed will greatly enrich and benefit our hospital.

Attention is called to the very full and complete report of our treasurer which will be submitted with this report and which explains our financial condition in detail.

The report of the secretary of the hospital and surgical staff of the hospital, Dr. A. A. Stern, for the nine months beginning October 1, 1922, and ending June 30, 1923, shows that during that time there were eight hundred and eighty-eight patients admitted to the hospital and there were seventy-nine births during the same time therein, and there were twenty-three patients in the hospital cared for during said term of the hundred and ninety persons. Of the infants born three died and twenty-six were discharged to their parents or guardians. Of the remainder of the patients sixty-four were discharged either cured or improved, with the exception of nineteen who were unimproved, and four were transferred, and there remains in the hospital July 1, 1923, thirty-nine patients.

Our hospital is an emergency hospital, many of the people being brought there near death's door, so that the number of deaths considered the number of persons treated seems remarkably small. Seven hundred and thirty of the patients who were treated were cured.

For further details see the very full report of Dr. A. A. Stern, secretary of the medical and surgical staff.

Our Ladies' Auxiliary has as usual been doing most excellent and effective work, both for the inmates of the institution and for the furnishing of the new hospital. Their work is greatly appreciated.

Our physicians and surgeons are faithfully attending the cases brought our hospital and are doing excellent work for much of which they receive no financial recompense.

Our nurses are succeeding well and are careful and attentive in the discharge of their duties.

Our superintendent is meeting with rare success.

Our hospital is in a good condition. All of which is respectfully submitted.

ted by the order of the board of managers.

Dated, July 9, 1923.

JAMES A. BETTS,
President.

TAGGING THE SEMI-PRO BASES

At Schenectady—Albany's Eastern League Club bunched hits with passes and defeated the Schenectady Knights of Columbus at Columbus Park, Schenectady, Monday night by a score of 15 to 1. The contest was called at end of the seventh inning on account of darkness. Deetjen, in the box for the Albany Club, allowed only two hits. Hickey, Kinnore and Halliday were in the box for the Schenectady Club and between them allowed twelve hits.

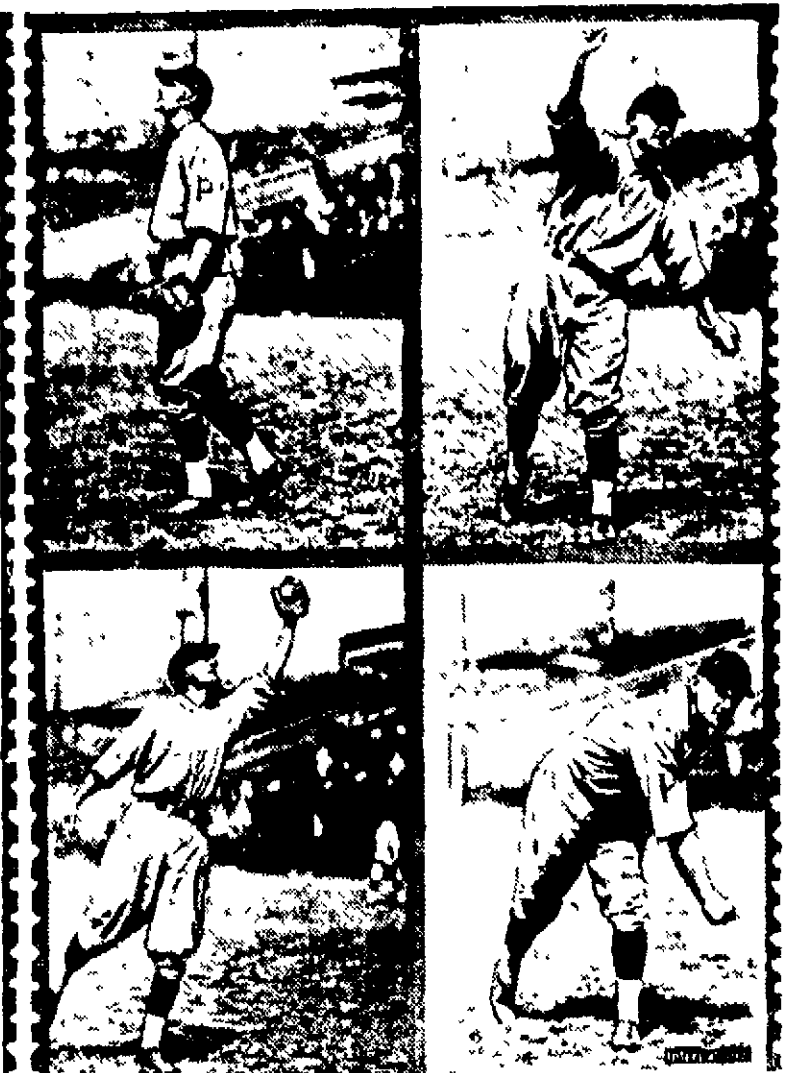

At Oneonta—The Oneonta Giants not only defeated the Stamford team over the week-end but also scored a victory over the Utica Arabian Knights on Saturday by a 5-3 score. Scanlon was in the box for Oneonta. Van Dyke, who was with the Albany Eastern League Club last season, is now playing second base for the Oneonta Club.

At Red Hook—The Red Hook Baseball Club again defeated the Astors of Rhinebeck this time by the score of 12-6. The game was played on Sunday at Red Hook.

Fuel From Waste Paper.

This fuel is not utilized by putting a match to the paper, but by the action of a microbe which will turn one ton of waste paper into fifty gallons of alcohol suitable for motor fuel. Two English chemists are said to have discovered this microbe, which, say its captors, is a rod shaped bacillus which can develop so much heat in its growth that other germs, which might interfere with the alcoholic fermentation, are automatically killed. Apart from yielding the motor alcohol, the chemists say, this germ is capable of developing some 15,000 cubic feet of gas, suitable for internal combustion engines from one ton of waste paper. It is to be hoped that these chemists will let the rest of the world know how to breed and use this useful little creature.

CAPEY OF PIRATES IS TOPNOTCHER

Max Carey, veteran outfielder of the Pittsburgh Pirates still is on the job after many years of big league service. Carey has always been a topnotcher among the base runners, is a mighty hard hitter and clever fielder. The photograph shows him in action in the field, catching a fly ball and returning it to the infield.

Baseball Notes

Managing a ball club is a great job if you don't weaken.

Princeton alone has beaten Holy Cross in baseball this year.

Brooklyn today continues the sensation of both major leagues.

The Athletics continue to be a dangerous young bunch of athletes.

Sam Crawford, former Tiger center-fielder, has invented an unbreakable bat.

The Indianapolis club released Pitcher Lee Bartlett to Terre Haute of the Three-I.

Shortstop Ezrey of the Swarthmore college team has signed with the St. Louis Nationals.

The first baseball league in Australia was organized this year. It consists of eight clubs.

Dallas has protested the sale by the Pittsburgh club of Pitcher Harold Carlson to Wichita Falls.

Parr O'Brien, outfielder of the Vernon club of the Pacific Coast league, has been sold to Grand Rapids.

The consistent batting streaks of leading veterans has been a feature of the early season baseball play.

To fill in the gap caused by the injury to Manager Bert Niehoff the Mobile club has obtained George Feder, recruit second baseman.

The Pirates have released Clarence Jonard, reserve catcher under optional agreement to the Wichita Falls club of the Texas league.

When Kansas City asked waivers on the veteran pitcher Gus Bono, the desperate Indianapolis club put in its claim and thus gets him.

An alumnus gave a pair of shoes for every home run knocked out by a Knox college baseball player in a varsity game this season.

Joe McGinnity, fifty-two years young and manager of the Dubuque team in the Mississippi Valley league is taking his regular turn in the box.

Marvin Goodwin continues his good work as a pitcher for Houston, indicating that his sore arm has come back strong in the Texas climate.

Ty Cobb began his baseball career with the South Atlantic league. He was a member of the Augusta (Ga.) club, and first played April 26, 1904.

Fred Merkle, former New York Giant player now at first for the Rochester International league team, ran his hitting streak through 32 games before he was checked.

Don't make any rash predictions on the way the clubs line up at the present time. Some teams won't hit their stride until the sun is hot enough to bake a pancake on the home plate.

Connie Mack is well pleased by the latest baseball machine he has constructed after eight years of real effort. The crowds show that the Quaker city will support a winner once more.

J. H. (Tarns) Marsh, University of Oklahoma athlete, star in football, basketball and baseball and famous on the track, finishes his school shortly and will get a tryout with the Oklahoma City Western league team.

Small Admissions Cause of Soccer Popularity

The prices explain why the soccer games draw so well in Great Britain. At the English cup final in the new Wembley park, adjacent to London, in which Bolton Wanderers beat West Ham United, two goals to none, there were 24,586 seats in the grand stand selling from five to 21 shillings, 9,776 front ring seats at five shillings, 33,151 standing room in inclosures at three shillings each, and 57,665 standing room on terraces at two shillings, a total of 125,201. Nearly 200,000 fans tried to see the games.

Terry McGovern Was Tricked by Corbett

Young Corbett, an unknown when he tackled the great Terry McGovern, at Hartford, pounded on Terry's dressing room door as he passed, shouting, "Come on out Terry, and take your beating." McGovern, accustomed to having his opponents scared to death at the very prospect of meeting him, was dumfounded. He bounded from his cot hurried into the ring and received the first humiliation of his brilliant career. Corbett knocked out the rattled Terry in the second round after a furious encounter.

Annual Yacht Races to Be Held in August

Dates for its annual international championship have just been announced by the Star Class Yacht Racing association. The series will be sailed on Long Island sound on August 28, 29 and 30. Following the system employed so successfully last summer, the Bay Side Yacht club will manage the first race. The second regatta will be held under the auspices of the Port Washington Yacht club. The Manhasset Bay Yacht club will manage the final race of the series.

Major League Teams Pleased With Florida

The Washington club has signed an agreement to train in Tampa for the next five years, and all the cities in Florida now entertaining major league clubs are endeavoring to line them up to long term contracts, as part of the plan for that spring "Coconut league." President Ebbs of the Brooklyn club has bought property near Clearwater and plans to spend his winters in Florida, which probably means the Dodgers will be tenants at Clearwater for some years to come.

Woman Is Champion

Virginia Wagner of Des Moines, Ia., twenty-one-year-old senior of Drake University, is the woman's 100-yard collegiate champion of America, and in addition one of the best all-around girl athletes. Miss Wagner won the title in a national meet negotiating the century dash in the remarkable time of 12.31 seconds. She also won a place in the high jump, and the 60-yard high hurdles.

South Americans Grab Tickets to See Firpo and Willard Fought Each Other—Arena Gets Official O. K. By Telegram to The Freeman.
New York, July 10.—Seventy-five thousand persons may witness the Jess Willard-Luis Firpo fight in Jersey City Thursday night. It was indicated by advance sale of tickets today. The box offices where seats are being disposed of are swamped. "Never saw such a demand for tickets," said Tex Rickard, promoter.
Fully twenty-five per cent of those after pasteboards. Rickard said, are South Americans, of Spanish descent. The affair is taking on an "international aspect."
Rickard said he would not be surprised if he outdraws the Dempsey-Carpenter fight, which was attended by 75,382 fans.
Willard and Firpo wound up active training today. Both fighters asserted they are in the best of condition. Willard is said to weigh about 230 pounds, nine less than the Firpo tipped the beat at 212 but is expected to enter the ring at 215 pounds.
The last obstacle in the way of the show was removed when Rickard received a permit from Commissioner John Saul, of the Jersey City building department, in which it set forth the arena is safe and that all requirements of the law have been met.

Really Conveyance.

NOVEL ENTERTAINMENT AT TANNERSVILLE SUNDAY

At Tannersville, on Sunday afternoon, July 15, at 2 o'clock will be held a celebration novel in its nature, which promises to be the biggest affair ever held in that place. Boxing bouts, baseball game, parade, music and water sports are included on the program.
Benny Leonard, who has been training in Tannersville, will give an exhibition, boxing Sammy Berne, Mike Carrier, Lew Snyder, and Johnny Martin each two rounds. There will also be other boxing exhibitions.
A twenty-piece band has been secured which promises to give plenty of music.
Following the bouts a baseball game will be played between the Tannersville team and Larry Doyle's Glens Falls team.
Proceeds will be for Tannersville baseball club.

OPEN EVENINGS.

John D. Rockefeller, Jr. is shown leaving the Little Community Church, in Pocantico Hills, New York, where he attended services on his 84th birthday. Instead of the customary ten-cent pieces, his largesse to each of the little ones who flocked to him was a five-cent gift.

TAGGING ALL THE BASES IN THE MAJOR LEAGUES

McGraw changed his batting order for the first time in over a year. Sixteen hits resulted and the Giants won from Cincinnati, 13 to 6.

Dazzy Vance dazzled the Cardinals and the Robins over the four-game series with a sixth inning rally, 5 to 3.

The lowly Phillies, led by Behan, trampled the Pirates, 4 to 2.

The Braves couldn't get to Osborne and the Cubs' fifteen hits brought home the 4 to 1 bacon, the third straight.

Though crippled, the Yanks trimmed St. Louis, 9 to 3. Babe Ruth knocking out his nineteenth homer. Sewell fluked one and thereby
